

Appl. No. 10/710,778  
Amdt. dated September 10, 2006  
Reply to Office action of June 12, 2006

REMARKS/ARGUMENTS

A copy of the original specification with pages numbered is submitted herewith.

Amendments to the specification have been made to correct the deficiencies pointed out by the examiner. The spelling of Methotrexate has been corrected, and the trademark BOSWELLIN now appears in upper case. Terminating periods have been added to paragraphs 15, 18, 20, 24, 35, 36, 37, 39-42, 44, 48, 54.

The claims are now amended to particularly point out and distinctly claim the subject matter of the invention. Original claims 1-10 have been canceled and new claims 11-20 have been added. The new claims separately address a method of treating psoriasis, and the compositions used for treatment. Support for the new claims can be found in the specification. The new claims are specifically related to the treatment of psoriasis and exclude all other hyperproliferative conditions, and arthritis.

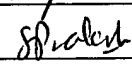

Applicants respectfully request that a timely Notice of Allowance be issued in this case.

Respectfully submitted,  
SABINSA CORPORATION
